The Central Valley Regional Water Quality Control Board (Central Valley Water Board) has prepared tentative Waste Discharge Requirements (WDRs) for the Lake California Wastewater Treatment Plant, which is owned and operated by Rio Alto Water District. The Board is currently soliciting public comments on the tentative Waste Discharge Requirements in accordance with the Notice of Public Hearing and Notice of Intent to Adopt Tentative Waste Discharge Requirements, which is attached to this letter.

A Public Hearing has been scheduled for the Central Valley Water Board to consider adoption of the tentative Waste Discharge Requirements at its **21/22 April 2016** Board Meeting. For your facility to be included with the adopted orders, you must post the enclosed Notice of Public Hearing by **24 February 2016** at the following locations:

- The entrance to the facility;

- The post office nearest to the Facility (if allowed).

To verify the Notice of Public Hearing has been posted, a completed copy of the enclosed Proof of Posting form must be sent to our office by **26 February 2016**.

To conserve resources, this letter transmits a paper copy of the tentative WDRs to the Dischargers only. All other persons are advised that the full text of the tentative documents is available on the Central Valley Water Board's web site at:
